

Dear Surrey SLI CEN Members,

Thank you to those of you who attended our May meeting.

**Our next CEN Meeting will be on 4<sup>th</sup> November 2015.**

In response to member requests, our next CEN Meeting will focus on supporting 7-19 year olds with persistent speech sound production difficulties.

A presentation on traditional intervention and what to try when it doesn't work will be given. It will include information on alternative intervention strategies and use of iPad and computer programmes and Electropalatography (EPG).

At the end of the presentation, there will be a discussion workshop activity to give us the opportunity to ask any questions and discuss what interventions have worked for us and why.

If there is anything you would like the presenter to cover during this workshop, please let us know.
